-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Konuta et al in view of Sata et al.

Konuta et al discloses a moving image data reproducing apparatus that shows substantially the same limitations recited in claim 1, including the feature of the internal memory for temporarily storing moving image signal (See Konuta et al's Figure 1, component 13), the feature of transferring a predetermined amount per time of the moving image signal from the recording medium to the internal memory and reproducing the moving image signal stored in the internal memory as specified in the present claim 1. (See Konuta et al's page 1, paragraphs [0019-0021], and page 3, paragraph [0037]).

Konuta et al fails to specifically disclose the feature of simultaneously performing transferring and reproducing of data on and from the internal memory as specified in the present claim 1.

Sata et al does disclose a video recording/reproducing apparatus, which includes the capability of simultaneously performing transferring and reproducing of data on and from the internal memory as specified in the present claim 1. (See Sata et al's Figure 1,

components 3-5, where it is disclosed the capability of simultaneously performing recording and reproduction of data on and from the recording medium).

It would have been obvious to one skilled in the art to modify the Konuta et al's apparatus wherein the recording/reproducing means provided thereof (See Konuta et al's Figure 1, component 13) would incorporate the capability of simultaneously performing transferring and reproducing of data on and from the internal memory in the same conventional manner as is shown by Sata et al. The motivation is to be able to verify the quality of the recorded data while recording operation is in progress as suggested in the prior art.

3. Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2621

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
